

Come grow with us!

Do you wish you had a place to garden?

Do you want to learn how to grow delicious,
healthy fruits and vegetables and lots of
colorful flowers to brighten your world?

Check out the

HOPE COMMUNITY GARDEN

Federated Church has created a community garden with over 30 individual plots, and there's room for **you**. Whether you want to grow lettuce, tomatoes, or daisies, you'll love our sunny, level location off Pleasant Valley Rd. near Diamond Springs. **Water** is available for each plot and **tools** are provided on-site. If you are new to gardening, there are lots of other gardeners willing to **teach** you what you need to know.

Individual 8' x 24' garden plots are now available for \$40.00 per year. Fee assistance can be arranged.

How can you get involved?

- Contact us reserve a garden plot.
- Help us plant and harvest our *Plant a Row for the Hungry* plots.
- Donate money or supplies to keep the cost affordable for all.
- Help spread the word about the garden by telling your friends.
- Want to know more? Presentations are available for groups.

To reserve a garden plot or for more information, please contact Robin Stanley (644-1631 or birdwomanca@comcast.net) or Dick Hunn (647-9337 or rwhunn@comcast.net).
