

## PLEASE MASK UP AGAIN (July 21, 2021 update)

We were all so happy to be able to attend in-person worship services in our sanctuary without having to wear a mask. However, due to a significant rise in cases of the Delta variant of the Covid-19 virus in the greater Sacramento area, Sacramento County's Public Health Officer now strongly recommends that all persons, even those vaccinated, wear masks in indoor public gatherings. Other counties are issuing similar recommendations.

El Dorado County has currently not issued any recommendations or mandates regarding masking. But throughout this pandemic, Federated's position has been that the safest course to protect our parishioners and the best way to love our neighbor is to comply with the health advice of State and nearby County public health officials.

Therefore, for worship and other gatherings, effective immediately, we encourage and expect all who gather on our Church campus to wear a mask. In order to fight this disease still in our midst, we especially feel this change is appropriate since vaccines still remain unavailable to significant segments of our population, most notably children under 12.  
**SO PLEASE MASK UP!**

Vaccination is our way out of this pandemic. Please use your influence to encourage those who are still undecided to take the simple but important step of vaccination.

We look forward to seeing you Sunday! We promise to recognize beneath your mask!!
